RITESH RAYASH

LARAVEL DEVELOPER

riteshkr7720@gmail.com | +91 9548899651 | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Results-driven Laravel Developer with 3+ years of experience architecting and scaling web applications, admin dashboards, payment workflows, and third-party API integrations. Skilled across PHP, Laravel, Vue.js, JavaScript, MySQL/PostgreSQL, Redis, AWS, Nginx, and Ubuntu, with a strong track record of improving backend performance, building data-rich dashboards, and delivering seamless, responsive user experiences.

TECHNICAL SKILLS

Backend: PHP, Laravel, MVC, Eloquent ORM, Laravel Excel, API Integration
Frontend: Vue.js, JavaScript, jQuery, Bootstrap, AJAX, HTML/CSS
Databases & Caching: MySQL, PostgreSQL (PgSQL), Redis
Cloud & Server: AWS, Ubuntu, Nginx
Integrations & Tools: Payment Gateways, DMT, AEPS, BBPS, Chart.js, DataTables, Chatify, Cron Jobs

PROFESSIONAL EXPERIENCE

Pinnacleworks Infotech Pvt. Ltd. — *Software Development Executive* Nov 2024 – Present

Parul University · *Student Admission Portal*

- Engineered and enhanced Laravel modules with Blade and Vue.js, delivering fast, responsive interfaces that elevated the overall user experience.
- Designed interactive Vue.js chart components for admin dashboards, giving stakeholders clear, real-time visibility into key metrics for sharper decision-making.
- Implemented Redis caching to cut response times by 50%, driving significantly faster real-time data presentation and application performance.
- Built configurable, role-based dashboards with custom statistics, reports, chart sizes, and default filters — accelerating decision-making workflows by 75%.
- Optimized Laravel Eloquent queries and controller logic, reducing database load and boosting API response times by approximately 30%.

Safepay India — *Developer / API Integration Engineer* Oct 2023 – Oct 2024

Fizopay · *Fintech Product*

- Integrated DMT and AEPS services — including cash withdrawal, balance inquiry, mini statement, and Aadhaar Pay — with full biometric-device support.
- Implemented PhonePe and Stripe payment gateways to power secure, seamless transaction workflows.

Maxpayss Communication · *Fintech Product*

- Built dynamic sales analytics dashboards using Chart.js for daily, monthly, and comparative reporting.
- Integrated QR-code payments into the admin portal and Laravel Excel for streamlined statement exports.
- Optimized backend performance and refined data-handling workflows for greater reliability.

Indistart Money · *Fintech Product*

- Integrated BBPS services spanning DTH, LPG, mobile recharge, LIC, and loan repayment workflows.
- Implemented data masking to safeguard user privacy and partnered with cross-functional teams to ensure accurate data synchronization.

Mrupay · *Fintech Product*

- Developed a polished, responsive business website using Bootstrap, CSS, and JavaScript.

Pearl Organisation — *PHP / Laravel Developer* Mar 2023 – Oct 2023

Your-ad · *E-Commerce Platform*

- Built responsive user and admin dashboards featuring sortable, filterable, and paginated data tables.
- Implemented cart management, multi-language switching, Google Login, AJAX-based data handling, and live chat functionality.

Epaa-group · *Tour & Travel Management Website*

- Built the platform from the ground up using Laravel scaffolding and a clean, modular architecture.
- Integrated Chatify for real-time two-way chat and configured cron jobs for automated, scheduled data updates.

IQ Hike · *Educational Learning Platform*

- Enhanced the user experience with AJAX-based data rendering and Laravel DataTables for fast, interactive views.

EDUCATION

Bachelor of Science (B.Sc.) | 2017 – 2020 | Saharanpur, Uttar Pradesh
